## IN BELGIUM WITH TERRIFIC FURY

Admitting Reverse, Allies Announce That Their General Position Is Unbroken

Thousands of Wounded Teutons Are Pouring Into Base Hospital At Liege

ONDON. November 12.—(Associated Press by Federal Wireless), —After desperate fighting, in which there were tremendous losses on both sides the Germans forced their way through the French lines at Dixemude, on Tuesday, and occupied the town. This gives them a position on the east bank of the Yser, the passage of which probably next will be attempted.

The capture of Dixemude shows that statements that the Garmans have been sending troops to the east were incorrect. The battle in Belgium now is raging with unprecedented fury.

ALLIES' GENERAL POSITION UNBROKEN While admitting this reverse, the French foreign office states that the general position of the Allies remains unbroken, after a day of furious fighting, while the Allies' extreme left has been pushed forward four miles from Nieuport to Lombartzyde, in the direction of Middelkerke. The battlefront extended from Nieuport to luwe on the Lys.

The official account of the fighting, given at Paris, says that the French retreated across the Yser at Dixemude before superior

numbers, after inflicting severe losses upon the attackers.

The early official statement said:

"Extremely severe fighting has been resumed between Nieuport and the River Lys. Generally speaking, the Allies' front has been maintained despite strong attacks against the points of suppert.

Vienna announces that the Austrians are progressing in the fighting against the Servians at the foot of Mount Shabatz and

Berlin says that heavy fighting between the Servians and Austrians continued through last night along the Shabatz-Lesnitza line, some of the Servian positions being taken, and that east of Kupanje the pursuit of the Servians continues.

The proclamation, which refers to the fact that the United States is at peace while so much of the rest of the world in at war, follows:

By the President of the United States of America

A PROCLAMATION.

It has long been the honored custom of our people to turn in the fruitful antumn of the year in praise and thanksgiving to Alrighty God for His many blessings and mercies to us as a nation. The year that is now drawing to a close since we last observed our day of national thanksgiving has been, while a year of discipline because of the mighty forces of war and change which have disturbed the world, also a year of special blessing for us.

It has been vouchsafed to us to remain at peace with honor, and in some part to succor the suffering and supply the needs of those who are in want. We have been privileged by our own peace and self-control in some degree to standy the counsels and shape the hopes and purposes of a day of fear and distress. Our people have looked upon their own life as a nation with a deeper comprehension, a fuller realization of their responsibilities as well as of their blessings, and a keaner some of the moral and practical significance of what their part among the nations of the world may come to be.

The hurtful effects of foreign war in their own industrial and commercial affairs have made them feel the more fully and see the more clearly their mutual interdependence upon one another, and has stirred them to a helpful cooperation such as they have soldom practised before. They have been quickened by a great moral stimulation. Their musicalashed arder for peace, their carriest pity and disinterested sympathy for those who are suffering, their readiness to help and to think of the needs of others have revealed them to themselves as well as to the world.

Our crops will feed all who need food; the self-possession of our people and det them to a serious anxieties and difficulties and the steadiness and resourcefulness of our business men will serve other nations as well as our

The business of the country has been supplied with new instrumentalities and the commerce of the world with new channels of trade and intercourse. The Panama Canal has been opened to the commerce of the nations. The two continents of America have been bound in closer ties of friendship. New instrumentalities of international trade have been created, which will be also new instrumentalities of acquaintance, intercourse and mutual service. Never before have the people of the United States been so situated for their own advantage or the advantage of their neighbors, or so equipped to serve themselves and mankind.

Now, therefore, I, Woodrow Wilson, Precident of the United States of America, do hereby designate Thursday, the 26th of November next, as a day of themselves, and prayer, and invite the people throughout the land
